

BOARD OF COUNTY COMMISSIONERS

AGENDA ITEM SUMMARY

Meeting Date: February 19, 2003

Division: BOCC

Bulk Item: Yes ☐ No ☒

Department: Commissioner Rice, District 4

AGENDA ITEM WORDING: Approval to repave road, install lighting, and construct pedestrian/bicycle paths on both sides of the roadway from the end of the island entrance bridge to the Truman Bridge.

ITEM BACKGROUND: During the development of the Village at Hawks Cay units, utility cuts were made across Duck Key Drive, which is the main road into the residential area of Duck Key. The asphalt patches to those cuts have sunken, making driving the segment quite rough. Additionally, there are safety issues with the high volume of pedestrian use of this stretch of road from the Hawk's Cay Village that present a safety and liability issue for the County that should be addressed promptly by completing this project as soon as possible.

PREVIOUS RELEVANT BOCC ACTION: The full-scale road repaving and pedestrian path/lighting project for Duck Key Drive is scheduled in the latest revised Monroe County Seven-Year Road Projects Plan for 2003-2004, approved by the BOCC November, 2002. This project was originally scheduled couple years earlier when the proposal to hook-up Duck Key and Conch Key to the Hawks Cay wastewater treatment facility began in earnest, postponing the road resurfacing project until the details of the sewer proposal and subsequent project scheduling could be resolved.
